### Role Purpose:

As a Senior Test engineer, you are involved in the quality assurance stage of software development and deployment. You'll conduct automated and manual tests to ensure the software created by developers is fit for purpose. Software testing involves the analysis of software, and systems, to avert risk and prevent software issues. Testing role will vary depending on project requirements.

### **Job Description**

- 4 - 7 years of solid implementation experience in Software Testing platform using Java/ J2EE, Dotnet Technologies.
- Coordinate with the testing team to develop performance test plans and cases.
- Analyze the test results and coordinate with the development teams for bug fixes.
- Preparation of test scenarios in line with requirements.
- Should be well versed with test case designs for different test phases like regression, SIT, ST and UAT.
- Test case peer review.
- Well versed with all phases of Software Test Life Cycle (STLC).
- Hands on with test environment preparation and test case execution.
- Defect reporting.
- Identification of automatable test scenarios.
- Experience with functional automation tools like UFT / Selenium.
- Test Summary Report preparation.
- Work closely with the Development team for fixing of the defects.
- Experience Working with jQuery, Struts, JSON, Angular and Java script.
- Involved in Batch/Back end testing using SQL queries.
- Handled completely all testing activities which includes review of test cases and test conditions, walks through of test cases with clients up to sign off.
- Should be able to Communicate well with Test Lead / Manager.
- Managing the test deliverables & point of contact for offshore.

### **Required Skills / Experience**

- Graduate in BE / BTech in Computer Science.
- Analyzing Information, Software Design, Software Documentation, Software Testing.
- **Hands on experience to automate back-end jobs and applications involving non-web interfaces.**
- Good Java, database and Web services exposure.
- Excellent Analytical and problem-solving skills.
- Good communication skills.
- Sound interpersonal and team working skills.
